21 years of infinite possibilities

We are an international services, trading and distribution company, listed on the JSE, South Africa and operating on four continents.

We employ more than 103 000 people worldwide, but our roots remain South African.

In a big business environment we run our company with the determination and commitment evident in a small business heart.

We believe in empowering people, building relationships and improving lives. Entrepreneurship, incentivisation, decentralised management and communication are the keys.

We subscribe to a philosophy of transparency, accountability, integrity, excellence and innovation in all our business dealings.

We turn ordinary companies into extraordinary performers, delivering strong and consistent shareholder returns in the process.

But most importantly, we understand that people create wealth, and that companies only report it.

Bidvest's vision lies in the realm of possibility. In this context the Bidvest arrow points the way forward. It is an equilateral triangle, a statement of balance and confidence behind which the organisation can rally.

The people of Bidvest are the force. The collective energy of their forward thrust is concentrated at the arrow's very tip.

The arrow proudly faces the future. Inspirational leadership becomes the vanguard pointing the way, while the combined passion and commitment to a shared vision by all our people provides the impetus that drives Bidvest forward with ever-increasing momentum.

The Bidvest Group Limited

Product and services directory (South Africa)

In our decentralised environment and with the vast array of products and services offered by the Group we have initiated this directory to assist employees and customers in their search for products and services provided by Bidvest companies.

A version available on the Bidvest website will be kept updated and will form the basis for an online product enquiry system.

Please let Junette Davidson (junette@bidvestcommunications.com) or Kate Cunningham (kate@bidvestcommunications.com) have your input, comments and suggestions.

We hope you find this directory useful.
