...when Bidvest people take on a challenge

We're an international services, trading and distribution company,
listed on the JSE, South Africa
and operating on four continents.

We employ 100 000 people worldwide,
but our roots remain South African.

In a big business environment we run our company
with the determination and commitment evident in a small business heart.

We believe in empowering people, building relationships and improving lives.
Entrepreneurship, incentivisation, decentralised management and communication are the keys.

We subscribe to a philosophy of transparency, accountability, integrity, excellence and innovation in all our business dealings.

We turn ordinary companies into extraordinary performers, delivering strong and consistent shareholder returns in the process.

But most importantly, we understand that people create wealth,
and that companies only report it.
